AI INFLUENCER CONTENT LICENSING

1. Create your own consistent AI persona (Virtual Influencer) or offer to build them for brands

Start by creating a unique virtual character, define their appearance and personality, or provide this as a service to brands.

2. Define persona: Name, age, style, interests, voice, target audience

Flesh out their identity with specifics like a name, age, distinct style, hobbies, communication tone, and identify their ideal followers.

3. Generate lifestyle content: 'AI influencer portrait, consistent character Sophia, fashion lifestyle photography, holding coffee cup in modern cafe, natural lighting, photorealistic 8k, wearing trendy beige trench coat, looking at camera'

Produce high-quality, photorealistic images for the persona in various lifestyle settings using detailed prompts to ensure consistency.

4. Build social media feed (Instagram/TikTok) for the persona

Create and curate a cohesive social media profile for the virtual influencer on major platforms to showcase their content and build an audience.

5. Monetize via: Brand sponsorships (product placement in images), licensing the character to specific brand as 'mascot', selling content packages to faceless marketing agencies

Generate income through sponsored posts, exclusive licensing deals for the character's use, or selling pre-made content bundles.

6. Ensure 100% face/body consistency across different settings (gym, beach, office, travel)

Maintain rigorous quality control to ensure the AI influencer's facial features and body are identical across all generated images, regardless of the environment.

7. Create 'Story' content (vertical images, candid shots)

Produce engaging vertical format content for Stories, including behind-the-scenes glances and candid-style shots to increase engagement.

8. Pricing: Exclusive brand mascot creation \$2,000-\$5,000 setup, Monthly content package 15 images \$500-\$1,500/month, Single sponsored post \$100-\$500

Set competitive rates for different services, including mascot setup fees, recurring monthly content subscriptions, and individual post sponsorships.

9. Handle engagement/captions (or outsource this part)

Actively manage community interaction by writing compelling captions and responding to comments, or hire assistance for this task.

10. Scale by running 3-4 different niche influencers (e.g., one Tech, one Fashion, one Fitness)

Expand your operation by creating and managing multiple virtual influencers, each catering to a different specific niche to maximize reach and income.

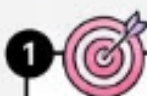

Key Highlights Box

✓ Established virtual influencers

✓ 100% character consistency

✓ Multiple niche scaling
